

Amendments to the Drawings:

The Examiner is respectfully requested to review and approve corrections to the drawings by the addition of FIG. 4 attached hereto. FIG. 4 does not add new matter since it conforms the drawings to the original specification. For example, imager 100 in FIG. 4 is illustrated in FIG. 1 and fully described in the original specification. The depiction of radiation source 1010, the imaged object 1020, and line 1030 between imager 100 and radiation source 1010 is described in the original specification (e.g., page 9, line 27 through page 10, line 2). The depiction of display 1040 is described in the original specification (e.g., page 3, lines 15-16).

Upon approval of the drawing corrections, the Applicant will prepare and submit the drawings in formal condition.

Attachments: Replacement Sheet (added FIG. 4)
